FAMILY GATHERINGS (On 1 DVD)

Ted Johnson, Audrey Stevens, and Orville "Chris" Christenot were children of Fred & Pearl Christenot. Audrey, Warren, & Wayne Stevens lived in a house they built on Durston Road which is the location for many of these clips.

From Wayne Stevens:

The house on Durston Road that I refer to is the log house that my parents built. The address was 1412 West Durston Road. My parents bought 2 acres in 1936 and built the log house. I lived there until graduating from college and leaving for the Air Force in 1966. My parents divorced in 1963, but my mom, Audrey, continued to live there until she moved to Idaho Falls in 2004. I sold the house in 2010 and it still stands, adjacent to Bozeman High School. My mother, Audrey, passed away in August of 2009.

Orville & Annette Christenot, my aunt and uncle, bought seven acres one mile down Durston Road from my home, about 1946 or 1947, and built a home there. Bobby, Karen, and Paul were born elsewhere, but grew up there. Judy was born when the family lived there. At the time of my youth, there were only two houses between the two homes. We kids would often walk the one mile on the gravel road to play.
